

Matchmaking at SECURITY RUSSIA

Bizon and Messe Essen are holding an international matchmaking event at SECURITY Russia.

This matchmaking event offers you a unique opportunity to make targeted contact with potential co-operation and business partners in Russia.

We are participating

- in the matchmaking event at the conference on 28 Oct. with ___ people.
(participation fee for max. 2 people 1,200.-, €, each additional person 300.-)
- in the matchmaking event at the conference on 28 Oct. with ___ people and are booking a small stand at the fair in the B2B Forum with matchmaking on 29 and 30 Oct.
(participation fee for max. 2 people 2,300.- €, each additional person 300.-€)
- as an exhibitor in the matchmaking event at the conference on 28 Oct. with ___ people and are booking the matchmaking event at the fair on 29 and 30 Oct.
(participation fee per person 100.-€)

Terms of participation http://www.security-russia.de/downloads/pdf/ser2009_teilnahme_en.pdf

Company name:	
Street:	
Postal code, Town:	
Country:	
Contact:	
Tel.:	Fax:
E-mail:	Web:

City, Date

Signature/company stamp

Description of company:

Company turnover:

Year founded:

No. of employees:

Contact data during the fair

Contact/
Names of the participants:

Can communicate in the languages: We require an interpreter for Russian

Mobile phone No.:

Best possible date: 28 Oct.	Matchmaking as part of the conference 14.00 – 18.00
29 Oct.	<input type="checkbox"/> morning <input type="checkbox"/> afternoon
30 Oct.	<input type="checkbox"/> morning <input type="checkbox"/> afternoon

We offer:

Product category (please enter the product group(s) here as per the directory of goods):

Description of the range (please describe your product range in one sentence.)

Description of the products (please indicate the products you offer with as much detail as possible):

We are looking for:

Description of your search (please describe in one sentence who you are looking for and why)

--

Nature of the co-operation sought (more than one answer possible):

<input type="checkbox"/> Commercial agreement / Customers	<input type="checkbox"/> Technical co-operation
<input type="checkbox"/> Joint venture agreement	<input type="checkbox"/> Production/Supply agreement
<input type="checkbox"/> License agreement / Sales partnership	<input type="checkbox"/> Financial resources
<input type="checkbox"/> Other (please specify under partner contribution)	

Partner contribution (role and profile of the partner as well as the task to be performed)

Type of partner sought (e.g. customer, industry, distributor, academy, research, authority)
Field of activity of the partner sought:
Tasks to be performed by the partner sought:

Product groups

Mechanical security systems

- 01.01.1 Steel, valuables and armour-plated money safes
- 01.01.2 Cash dispenser safes
- 01.01.3 Wall safes
- 01.01.4 Data safes
- 01.02.1 Interior installations for steel, valuables and armour-plated money safes
- 01.03.1 Day-night safes
- 01.03.2 Trays
- 01.03.3 Automatic money changers and dispensers
- 01.03.4 Automatic coin testers
- 01.03.5 Cash dispensers, night cash dispensers
- 01.03.6 Bulletproof kiosks
- 01.03.7 Anti-hold-up counter positions
- 01.03.8 Safe deposit boxes
- 01.04.1 Strong rooms
- 01.04.2 Installations for strong rooms
- 01.04.3 Data rooms
- 01.05.1 Security windows
- 01.05.2 Security doors
- 01.05.3 Security two-door interlocks
- 01.05.4 Gates, barriers
- 01.05.5 Turnstiles
- 01.05.6 Security grilles, fencing
- 01.05.7 Roller blinds
- 01.06.1 Security locks, fittings
- 01.06.2 Chains, bolts, grating security devices
- 01.06.3 Door openers, door closures
- 01.06.4 Roller blind security devices
- 01.07.1 Steering wheel locks, ignition key locks
- 01.08.1 Bullet-resistant glass
- 01.08.2 Safety glass, laminated glass
- 01.08.3 Bullet-resistant wood panels
- 01.08.4 Security foils
- 01.08.5 Other security building materials
- 01.09.1 Wire mesh
- 01.09.2 Barbed wire, barbed tape, concertinas
- 01.10.1 Security seals
- 01.10.2 Mechanical anti-theft devices for garments

Technological and constructional fire protection

- 02.01.1 Sprinkler systems
- 02.01.2 Water-spray fire extinguisher systems
- 02.01.3 Foam fire extinguisher systems
- 02.01.4 Powder fire extinguisher systems
- 02.01.5 Inert-gas extinguisher systems
- 02.01.6 Explosion suppression systems
- 02.02.1 Portable fire extinguishing equipment, hand held fire extinguishers
- 02.03.1 Fire barrier doors and traps
- 02.04.1 Fire protection closures
- 02.05.1 Fire-proof seals
- 02.06.1 Smoke and heat extraction systems
- 02.07.1 Escape route guidance systems
- 02.08.1 Emergency lighting
- 02.09.1 Fire protection glazing

Control and surveillance equipment / Information systems for central control offices

- a) Equipment by application
 - 03.01.1 Access control systems
 - 03.02.1 Gate and door opening systems
 - 03.03.1 Identification systems
 - 03.04.1 Automatic access systems (encoded card systems)
 - 03.05.1 Cheque control systems
 - 03.06.1 Person and baggage checking systems
 - 03.07.1 Location systems
 - 03.08.1 Monitoring systems for warehouses, shops and stores
 - 03.09.1 Facility management
 - 03.10.1 Paging and control systems
 - 03.11.1 Guard control systems
 - 03.12.1 Emergency call systems for elderly persons
 - 03.13.1 Superior control stations
 - 03.13.2 Computer systems for primary control centres (hard and software) („interactive operation“)
 - 03.13.3 Computer systems for security control centres (hard and software) („automatic operation“)
- b) Equipment by mode of operation
 - 03.51.1 Electrical contact systems (closed and/or open circuit operation)
 - 03.52.1 Photo-electric systems
 - 03.52.2 Mirror systems

- 03.52.3 Infrared systems
- 03.52.4 Ultrasonic systems
- 03.52.5 Microwave systems
- 03.52.6 X-ray systems
- 03.53.1 Visual location systems
- 03.53.2 Laser guide beam systems
- 03.53.3 Radar systems
- 03.54.1 Cable transmission systems
- 03.54.2 Wireless (radio) transmission systems
- 03.54.3 Alternative transmission systems
- 03.55.1 Visual warning systems
- 03.55.2 Audible warning systems
- 03.56.1 Photographic recording systems
- 03.56.2 Cinematographic recording systems
- 03.56.3 Electromagnetic recording systems
- 03.57.1 Closed-circuit television and video systems

Hold-up, intruder and theft alarm equipment

- a) Equipment by application
 - 04.01.1 Hold-up security systems
 - 04.02.1 Anti-intruder and anti-theft security systems
 - 04.03.1 Radio transmitting alarm systems
 - 04.04.1 Object protection systems
 - 04.05.1 Room protection systems
 - 04.06.1 Filing protection systems
 - 04.07.1 Perimeter protection systems
 - 04.08.1 Vehicle alarm systems
 - 04.09.1 Police and emergency call systems
 - 04.10.1 Portable alarm systems
 - 04.11.1 Security control stations
- b) Equipment by mode of operation
 - 04.51.1 Electrical contact systems (closed and/or open circuit operation)
 - 04.52.1 Photo-electric systems
 - 04.52.2 Mirror systems
 - 04.52.3 Infrared systems
 - 04.52.4 Ultrasonic systems
 - 04.52.5 Microwave systems
 - 04.52.6 Seismic systems
 - 04.52.7 Pneumatic systems
 - 04.53.1 Visual location systems
 - 04.53.2 Laser guide beam systems
 - 04.53.3 Radar systems
 - 04.54.1 Cable transmission systems
 - 04.54.2 Wireless (radio) transmission systems
 - 04.54.3 ISDN transmission systems
 - 04.54.4 Alternative transmission systems
 - 04.54.5 Private security networks
 - 04.55.1 Visual warning systems
 - 04.55.2 Audible warning systems
 - 04.56.1 Photographic recording systems
 - 04.56.2 Cinematographic recording systems
 - 04.56.3 Electromagnetic recording systems
 - 04.57.1 Closed-circuit television and video systems

Fire alarm equipment, smoke and gas warning equipment

- a) Equipment by application
 - 05.01.1 Flame detection systems
 - 05.02.1 Heat detection systems
 - 05.03.1 Smoke detection systems
 - 05.04.1 Gas detection systems
 - 05.05.1 Water detection systems
 - 05.06.1 Dust detection systems
 - 05.07.1 Portable alarm systems
 - 05.08.1 Fire alarm terminal station
- b) Equipment by mode of operation
 - 05.51.1 Photo-electric systems
 - 05.51.2 Mirror systems
 - 05.51.3 Infrared systems
 - 05.52.1 Cable transmission systems
 - 05.52.2 Wireless (radio) transmission systems
 - 05.52.3 Alternative transmission systems
 - 05.53.1 Visual warning systems
 - 05.53.2 Audible warning systems
 - 05.54.1 Photographic recording systems
 - 05.54.2 Cinematographic recording systems
 - 05.54.3 Electromagnetic recording systems
 - 05.55.1 Closed-circuit television and video systems

Information protection (data protection systems)

- 06.01.1 Appliances for security concepts
- 06.01.2 EDP consulting and revision
- 06.01.3 Services for hearing protection
- 06.02.1 Auxiliary computer centres
- 06.02.2 Individual modules for backup solutions
- 06.03.1 Data access security (hardware)
- 06.03.2 Software with security functions
- 06.03.3 Protection against compromising radiation
- 06.03.4 Data recovery
- 06.04.1 Hardware for communication security
- 06.04.2 Software for communication security
- 06.04.3 Data encryption
- 06.04.4 Network security
- 06.05.1 Transport security for data carriers
- 06.06.1 Shredders for information media
- 06.06.2 Services for archiving and destroying information media
- 06.07.1 Security copying machines
- 06.07.2 Voice communication scramblers
- 06.07.3 Protection systems against interception
- 06.08.1 Protection from information theft
- 06.09.1 Authentication solutions
- 06.10.1 Identity Management
- 06.11.1 Single Sign-on

Individual devices for electronic security systems

- 07.01.1 Switches and contacts
- 07.01.2 Measuring devices
- 07.01.3 Control apparatus
- 07.01.4 Control panels
- 07.01.5 Receiving panels
- 07.02.1 Visual signalling devices
- 07.03.1 Audible signalling devices
- 07.03.2 Microphones
- 07.03.3 Audio-frequency amplifiers
- 07.03.4 Loudspeakers, headphones
- 07.03.5 Portable loudspeakers, megaphones
- 07.03.6 Intercommunication systems
- 07.03.7 Voice recorders
- 07.03.8 Dialling devices
- 07.04.1 Radio transceivers
- 07.04.2 Microwave transceivers
- 07.04.3 Vehicle radio communication devices, walkie-talkies
- 07.04.4 Mobile phones
- 07.05.1 Ultrasonic transmitters and receivers
- 07.06.1 Lighting equipment
- 07.06.2 Storage and primary batteries
- 07.06.3 Power supply units
- 07.06.4 Emergency generators
- 07.07.1 Light beams, light sources, light receivers (photo-electric cells)
- 07.07.2 Light beam switches, reflectors
- 07.07.3 Laser devices
- 07.07.4 Infrared light sources and receivers
- 07.07.5 Infrared detectors
- 07.08.1 Infrared cameras
- 07.08.2 Instant foto cameras
- 07.08.3 (Closed-circuit) television cameras
- 07.08.4 (Closed-circuit) television monitors
- 07.08.5 Video recorders
- 07.08.6 Digital video storage devices
- 07.08.7 Video transmission devices
- 07.08.8 Video distribution devices
- 07.09.1 Time recorders, signal clocks
- 07.10.1 X-ray equipment
- 07.10.2 Metal detectors
- 07.11.1 Identity-card manufacturing apparatus
- 07.11.2 Identity-photo manufacturing apparatus
- 07.11.3 Identity-cards
- 07.11.4 Identity-card readers
- 07.11.5 Electronic lock cylinders
- 07.11.6 Biometric systems
- 07.12.1 Vibration (shock) detectors
- 07.12.2 Seismic sensors, seismic microphones
- 07.12.3 Glass-break detectors (sensors)
- 07.13.1 Flame detectors
- 07.13.2 Heat detectors
- 07.13.3 Smoke (mist) detectors
- 07.13.4 Combined detectors
- 07.13.5 Gas detectors
- 07.13.6 Fire alarm push buttons
- 07.13.7 Explosives detectors

Special vehicles and vehicle equipment

- 08.01.1 Cash carrying cases
- 08.02.1 Cash carrying vehicles

- 08.03.1 Operation vehicles
- 08.04.1 Armoured cars
- 08.05.1 Fire brigade vehicles
- 08.06.1 Ambulance vehicles
- 08.07.1 Disaster rescue vehicles
- 08.08.1 Equipment and appliances for fire brigade and disaster rescue vehicles
- 08.09.1 Vehicle location systems

Close-combat protection (Interpolitex)

- 09.01.1 Truncheons
- 09.01.2 Chemical close-combat protection
- 09.01.3 Hand-held fire arms (pistols, revolvers, sharp-shooter rifles)
- 09.01.4 Holsters
- 09.02.1 Night vision equipment
- 09.03.1 Shooting screens and shooting ranges

Personal equipment, service dresses and protective clothing

- 10.01.1 Signalling devices
- 10.01.2 Signal whistles
- 10.01.3 Lighting equipment (portable)
- 10.02.1 Batons
- 10.02.2 Warning and flashing lights
- 10.02.3 Flares
- 10.03.1 Portable loudspeakers
- 10.03.2 Walkie-talkies
- 10.04.1 Dressing material bags
- 10.04.2 First aid (emergency) bags
- 10.04.3 Mouth breathing apparatus
- 10.05.1 Uniforms, service dresses
- 10.05.2 Protective helmets, face protectors, protective shields
- 10.05.3 Protective clothing
- 10.05.4 Cuffs and cap covers, conspicuity clothing
- 10.05.5 Bulletproof vests
- 10.06.1 Radiation-resisting clothing
- 10.06.2 Acid-resisting clothing
- 10.06.3 Protective masks
- 10.07.1 Respiratory apparatus

Counterterrorism and catastrophe prevention / measuring equipment

- 11.01.1 Radiation measuring devices
- 11.01.2 Radiation warning devices
- 11.01.3 Dose output meters
- 11.01.4 Pocket dose meters
- 11.01.5 Radiation protection calculators
- 11.02.1 Gas measuring devices
- 11.03.1 Other measuring equipment

Crime detection systems (Interpolitex)

- 12.01.1 Fingerprint systems
- 12.02.1 Systems for preservation of marks (other than fingerprints)
- 12.03.1 Visual systems
- 12.04.1 Identification cameras
- 12.05.1 Spectrographs
- 12.06.1 Lab equipment for analyses in chemistry, physics, biology and geology
- 12.07.1 Voice communication scramblers
- 12.08.1 Protection systems against sub-miniature transmitters
- 12.09.1 Lie detectors

Surveillance and guarding services

- 13.01.1 Guarding
- 13.02.1 Industrial security services
- 13.03.1 Control and security services
- 13.04.1 Peripheral surveillance (incl. alarm activation)
- 13.05.1 Cash transport
- 13.06.1 Detective services

Organisation, planning training

- 14.01.1 Organisational means and systems
- 14.02.1 Planning
- 14.03.1 Training
- 14.04.1 Associations

Specialized literature

- 15.01.1 Books
- 15.02.1 Periodicals

Installation, documentation and maintenance

- 16.01.1 Installation
- 16.02.1 Documentation
- 16.03.1 Maintenance
